*“My name is \_\_\_\_\_. I calling from city, state. I am calling to let Federal Rep. that I oppose this administration’s immigration practices. I ask that your office stop supporting and end the practice of separating immigrant children from their parents immediately.*

*I furthermore object to keeping whole families in concentration camps indefinitely while awaiting deportation. It is cruel and inhumane and will ultimately be the cause of long-lasting trauma on children and families fleeing death and violence. It is state sponsored terrorism directed at people in dire situations who are coming to our borders to seek asylum.”*
